

IN THE CLAIMS

Please amend the claims as follows:

Claims 1-19 (cancelled)

Claim 20 (currently amended): A vaporization system comprising a vaporization promoting element selected from the group consisting of a heat generating source, hot steam, ultrasonic waves, negative ions, and combinations thereof, a carrier, and a composition comprising a sesquiterpene alcohol selected from the group consisting of cedrol, cedrenol, farnesol, patchouli alcohol, eugenol, α -santalol, α -bisabolol, β -caryophyllene alcohol, vetiverol, sclareol, geranyl linalool, isophytol, nerolidol, globulol, guaiol and a mixture thereof wherein said composition has no ~~with an~~ odor ~~below~~ above a detectable threshold and a boiling point of at least 250°C.

Claim 21 (new): The vaporization system of claim 20, wherein the sesquiterpene alcohol is cedrol.

Claim 22 (new): The vaporization system of claim 21, wherein the cedrol is at least 97% pure.

Claim 23 (new): The vaporization system of claim 20, wherein vaporization system provides a sesquiterpene alcohol concentration in air of from 0.01 to 100 ppb.

Claim 24 (new) The vaporization system of claim 20, wherein said sesquiterpene alcohol is at least one selected from the group consisting of cedrol, cedrenol, globulol and a mixture thereof.
